Techbook supports social studies, science, and math educators with award-winning digital content designed for diverse student learners and curated by experts.

SOCIAL STUDIES TECHBOOK™

Social Studies Techbook uses an inquiry-based learning process that strengthens literacy, critical thinking, and citizenship skills. Course units have document-based investigations, hundreds of primary sources, interactive maps, and exclusive videos.

Available Courses

- » World Geography and Cultures
- » World History
- » Civics and Government
- » U.S. History
 - » Prehistory to Reconstruction
 - » Civil War to Present
 - » Prehistory to Progressive Era
 - » Prehistory to Present

SCIENCE TECHBOOK™

Built on the 5E model, Science Techbook combines different types of media to explain and reinforce science concepts. STEM connections are woven throughout and real-time student data helps to support differentiated instruction.

Available Courses

- » Elementary Science
- » Middle School Science
- » High School Science
 - » Biology
 - » Chemistry
 - » Physics
 - » Earth & Space Science

*Also available for NGSS

MATH TECHBOOK™

Math Techbook engages students with real-world problems worth solving while building lasting proficiency. It uses a balanced instructional approach, combining conceptual understanding, procedural fluency, and application to challenge students with rigorous and authentic tasks.

Available Courses

- » Grades 6, 7, and 8
- » Algebra I
- » Geometry
- » Algebra II
- » Integrated Math I, II, and III
